Executive Summary

Motivated and enthusiastic statistics / economics student seeking an internship opportunity to leverage analytical and technical skills to solve real-world problems, gain experience and enhance professional abilities.

Education

UNIVERSITY OF CALIFORNIA, SANTA BARBARA

SEPTEMBER 2022 – JUNE 2026

BACHELOR OF SCIENCE – STATISTICS & DATA SCIENCE

Relevant courses: Probability and Statistics, Design and Analysis of Experiments, Regression Analysis

BACHELOR OF ARTS - ECONOMICS

Relevant courses: Statistics for Economics, Econometrics, Corporate Financial Management

Skills

- **Hard Skills:** Introductory knowledge in: Python (NumPy, Pandas, Matplotlib, Seaborn), R, SQL, Git/GitHub, Excel, Word, PowerPoint (and Google equivalents).
- **Soft Skills:** Hardworking, organized, teamwork, communication, follow directions well/efficiently.

Projects

Linear Regression Analysis: US Health Insurance Cost Prediction in R

- Built a linear regression model to predict insurance charges based on demographic and health factors, achieving an R^2 of 0.86. Performed **data cleaning, EDA, and feature engineering** in R. Evaluated model assumptions and significance using residual diagnostics and statistical tests.
 - https://github.com/aidanpmitchell/Insurance_Linear_Regression/

Soda Taste Test 3x2 Factorial Experiment Design with Blocking

- Designed and executed a 3x2 factorial experiment to evaluate the impact of pouring and consumption methods on soda enjoyment. Collected data from 6 participants and modeled results using a blocked linear model in R. Performed **hypothesis testing, interaction analysis, and post-hoc power simulation**, achieving 93% statistical power and validating key assumptions with diagnostic plots.

Experience

SHIFT LEADER/TRAINER - BLAZE PIZZA

OCTOBER 2019 – AUGUST 2024

- Communicated and worked with a team to provide a high level of customer service and quality.
- Trained and onboarded new hires in customer service, food prep, and safety protocols
- Supported front- and back-of-house efficiency through team coordination and problem-solving.
- Oversaw daily operations, including scheduling, inventory, cash handling, and shift management.
