Executive Summary

Analytical and detail-oriented professional with experience applying quantitative methods to financial and business problems. Skilled at building predictive models, streamlining analytical workflows, and communicating insights that support data-driven decision-making.

Experience

STRATEGIC INITIATIVES INTERN – CETERA FINANCIAL GROUP **JUNE - AUGUST 2025**

- Designed and developed a machine learning model to analyze advisor attrition patterns and identify key performance drivers
- Created and automated multi-year Alteryx workflows to streamline data processing and reporting for business analytics teams
- Contributed to retention and financial modeling initiatives within the Strategy & Solutions group to support firm-wide growth strategies

Education

UNIVERSITY OF CALIFORNIA, SANTA BARBARA

SEPTEMBER 2022 – JUNE 2026

BACHELOR OF SCIENCE – STATISTICS & DATA SCIENCE

Relevant courses: Regression Analysis, Design and Analysis of Experiments, Statistical Machine Learning

BACHELOR OF ARTS - ECONOMICS

Relevant courses: Statistics for Economics, Econometrics, Corporate Financial Management

Skills

- **Technical:** Python, R, SQL, Excel, Alteryx, PowerPoint
- **Analytical:** Data cleaning, statistical modeling, predictive analysis, workflow automation
- **Professional:** Communication, collaboration, organization, adaptability, problem-solving

Projects

Linear Regression Analysis: US Health Insurance Cost Prediction in R

- Built and evaluated a multiple linear regression model to predict insurance charges based on demographic and health factors. Performed data cleaning, exploratory analysis, and residual diagnostics to validate assumptions and assess model accuracy.

[GitHub: Insurance Linear Regression](#)

Soda Taste Test 3x2 Factorial Experiment Design with Blocking

- Designed and analyzed a blocked factorial experiment to measure how pouring and consumption methods affect soda enjoyment. Conducted hypothesis testing, interaction analysis, and model diagnostics to confirm statistical validity.
